

RAVENS-WAY WILD JOURNEYS

INTRODUCTION TO SKY ISLAND BIRDS: BEGINNING BIRDING IN THE SAN PEDRO RIVER

Designated a Globally Important Bird Area in 1996 by the American Bird Conservancy, this 56,000-acre preserve along the upper San Pedro River is home to over 100 species of breeding birds and provides invaluable habitat for over 250 species of migrant and wintering birds! If you have ever found yourself in Nature wondering what birds were around you, then this workshop is for you! Join Naturalist & Wildlife Biologist Vincent Pinto and discover how to identify birds in the field using a wide range of visual, auditory, & habitat clues as you wander the incredibly bird-rich Sky Islands!
