

RAVENS-WAY WILD JOURNEYS

AN INTRODUCTION TO FIELD BOTANY: HOW TO FIND & IDENTIFY NATIVE PLANTS - LOWLANDS

The Sky Islands of Southeastern Arizona are host to an incredible diversity of plants. Wildflowers, shrubs, trees, vines, and ferns grace our many habitats. Sadly, however, most people are able to identify only a few species. Here is your chance, then, to learn how to find and scientifically identify wild plants from the lowlands, - Deserts & Grasslands, in your area. Once you learn the basics of plant ID, then you can apply them to anywhere that you find yourself in Nature!

WHEN: **MAY 22**

TUITION: **\$45** - includes use of all our facilities: Nature Trails, unique Stone-age Village, amazing Nature & Science Discovery Center, Organic Gardens & Orchard, picnic areas, incinerator toilets, and more !

WHERE: **RAVEN'S NEST, our 42-acre Nature Sanctuary near Patagonia Lake!**

Ethnobotanist, Wilderness Survival Instructor, Naturalist, & Wildlife Biologist Vincent Pinto and his wife, Claudia, run RAVENS-WAY WILD JOURNEYS - dedicated to the Conservation and Protection of Nature, Wildlife, and the Environment through a wide variety of Eco - Friendly Programs and Adventures in the Sky Island Region! Vincent has been teaching & raising awareness of Nature since 1987.
