

# RAVENS-WAY WILD JOURNEYS

## WILD JOURNEYS: FROM ARIZONA TO AUSTRALIA

Australia represents an amazing on-going evolutionary experiment. Long isolated from the rest of the world, it harbors tropical forests reminiscent of those found on Gondwanaland 65 millions years ago! In this detailed slide show you'll meet some of the plants & animals that call the wet tropics of Queensland their home. Naturalist & Wildlife Biologist Vincent Pinto will provide expert commentary.

**WHEN: MAY 31 - Please RSVP!**
